

Why Join *NC Go!*

There is no other organization in the state like *NC Go!* We are focused solely on increasing and protecting funding for transportation infrastructure.

***NC Go!* is not just a “road builders” coalition.** *NC Go!* is North Carolina’s only broad-based organization working exclusively to improve mobility around the state. Our more than 75 members around the state include chambers, transit agencies, cities and counties, transportation advocates as well as businesses and professional associations related to construction, materials and equipment.

***NC Go!* is the Voice of Transportation in North Carolina.** Since 2001, *NC Go!* has urged state leaders to adequately invest in transportation infrastructure. That includes increasing taxes, fees and other revenue sources to keep pace with our state’s growth. *NC Go!* is often one of the only voices willing to lead that discussion.

Who Should Join *NC Go!*

- Chambers
- Transit agencies
- Cities
- Counties
- Professional associations
- Transportation construction firms
- Transportation construction materials and equipment suppliers
- Engineering and design firms
- Banks, attorneys or CPAs who serve transportation industry clients

Even if you are already a member of a professional trade or other organization that advocates for transportation funding, joining *NC Go!* is still important. We offer a diverse, broad membership and are focused solely on increasing transportation funding.

About *NC Go!* Membership

The dues structure for *NC Go!* membership is attached. It includes a sliding scale based on business size/number of employees as well as separate fee structures for businesses whose primary focus is **not** the transportation industry, non-profits, chambers and transit agencies.

NC Go! members receive weekly relevant transportation news headlines, updates on federal and state policy issues, access to *NC Go!* reports and white papers as well as use of the *NC Go!* online advocacy system. The *NC Go!* advocacy system helps connect members with their state and federal elected leaders. It provides a seamless system to communicate with elected officials, alerts on timely congressional and state legislature bills related to transportation, and messages/talking points for advocates to use.

The online system is free to use with *NC Go!* membership and can also be used by your employees, colleagues, peers or members. That means your group/company can help have a big impact on communicating with legislators.
